These men will form the nucleus of the Alameda county charter committee, and will be charged with the duty of securing a modern and efficient system of county government that will consolidate all present duplicated offices owing to the independent city and county administrations.

It is the intention of the first meeting of the committee to consider a number of additional names. The first

20,000 Turks Are Killed Or Wounded in Four-Day Battle at Monastir

CONSTANTINOPLE, Nov. 21.—The Ottoman government has rejected the terms offered by the allied Balkan nations. Nazim Pasha, the Turkish commander-in-chief, has been ordered to resume operations.

The official announcement of the rejection of Bulgaria's terms reads:

"The Porte, finding the Bulgarian conditions for an armistice unacceptable, has ordered Nazim Pasha to resume military operations."

Nazim Pasha, in a telegram to the Ottoman war office today, said:

"According to reports just received, Turkish reconnoitering parties have confirmed the report that the enemy abandoned the trenches held during the last three days, facing the line of forts in the zone which they had occupied. The Bulgarians have fallen back at certain points as much as four and a half miles from the Turkish lines. A number of wounded soldiers and many dead bodies were found in the Bulgarian trenches, besides rifles, ammunition and other equipment."

The sound of heavy firing, presumably from naval guns, was again audible today.

WHAT A NEWSPAPER DOES FOR COMMUNITY

(Stockton Record November 19, 1912.)

THE Oakland Chamber of Commerce has extended its thanks to the newspapers of that city for their gallant and effective fight against the transbay annexation scheme.

THE TRIBUNE improves the opportunity to remind the public of the cost of service which newspapers render in promotion and protection of public interests.

Not alone is newspaper publicity indispensable in educating and shaping public sentiment, but the fact that newspaper owners bear the heavy cost of the service they render is brought home to a not always appreciative public. THE TRIBUNE says:

Believing that annexation would inflict irreparable injury on the citizens of Oakland and Alameda county, THE TRIBUNE devoted all the resources and energies at its command to the cause of anti-annexation. It gave the Anti-Annexation Association the free use of its columns to present their objections to the scheme. Day after day for two months it printed pages of matter in opposition to the scheme of San Francisco.

It employed special writers and extra office help to make the fight effective. All the extra expense thus incurred, amounting to thousands of dollars, was paid out of the paper's earnings. The Anti-Annexation Association was not charged a cent for advertising. Nothing printed in this paper cost a cent to anybody else. THE TRIBUNE performed what its publishers deemed a patriotic duty to its constituency. It gave the resources of its plant and the energies of its editorial staff to the public service.

THE TRIBUNE'S service in the anti-annexation fight belongs to a class of community service which every live newspaper is called upon to render continually, at its own expense.

No semi-public enterprise, no celebration, no public movement for the material or moral upbuilding of a community—nothing that is dependent on public interest or support—has promise of success unless the newspaper can be enlisted, at its own expense.

The merchant is paid for his Fourth of July bunting, but the newspaper gladly gives columns of promotion matter, at its own expense.

The public service corporation, the railroad and other big enterprises are granted rights of way, and are boosted and backed by public bodies with no expectation that anyone but the stockholders will clip the coupons; but a newspaper stands behind the boosters and the boosted, at its own expense.

Men and organizations of a semi-public nature with plans and schemes (all the profits and glory going to the promoters and owners) feel free to draft the newspaper for service, at the newspaper's own expense.

Even the minister or priest who stands at the graveside is, in this latter day, usually compensated for his holy service; but the newspaper gives time and attention to the sorrows as well as the joys of its constituency, at its own expense.

The newspaper you now hold in your hand is one of the most expensive products of the day. The average wage in the newspaper office is higher than in nearly any other class of enterprise. The modern newspaper is not the product of amateurs, but of trained men, skilled mechanics and business specialists. The payroll of the average large store would be lost when placed beside that of the average daily newspaper.

This is not shop talk; it is facts—facts easily provable to investigators. Newspaper support and aid—newspaper contribution of costly space, labor and service—these are supposed to be had for the asking.

Possibly newspaper owners are to blame for not themselves first appreciating their value and emphasizing it on the public.

Perhaps they are to blame for not making their columns worth as much as coffee, snuff and monkey wrenches.

Perhaps if they placed a tariff on all publicity save that of actual news and insisted on sharing some of the benefits of their own service, their service to the community would be more appreciated.

At least the newspapers ought to have a "thank you," if others get the dollars and the larger credit for their service.

True, a newspaper has a love to serve, a duty to discharge and a patriotic attachment to declare. But it could do all this generously, and rest while many more pretentious public enterprises were catching up.

Far be it from the Record to invite comparisons, to speak enviously or to lessen the pleasure it feels in serving Stockton; but, mayhap, a reminder of the cost of a service freely given will conduce to mutual appreciation between paper and people.

"Believing uniformly throughout the state in the matter of speed and fine laws for automobiles," said Reavis, "is one of the important questions on which the north and south can unite for the common good of California, we have come here to ask San Francisco and Oakland to examine the speed and fine ordinances prepared by our commission, and if they agree on basic principles employed to get behind the measures with us, at the coming session of the legislature."

The legislation we propose to ask is the outcome of a condition in Los Angeles county wherein practically every one of the thirty odd cities outside of Los Angeles has had a different

TERMS "IMPOSSIBLE."

LONDON, Nov. 21.—The Bulgarian terms of peace are impossible, according to the Turkish Grand Vizir. He made this statement to the correspondent of the Daily Mail at Constantinople today. Kiamil Pasha said:

"I received last night communication through the Russian ambassador to Turkey of the terms which the Bulgarians suggest for an armistice as a preliminary to the discussion of the terms of peace. The terms are impossible and until they are radically altered the war will continue."

meeting will be held in the near future to discuss plans for further action looking toward the preparation of a tentative charter to be submitted with the recommendation of the committee to a board of freeholders to be later elected.

In discussing the latest development in the proposed new county government President Requa said:

"The step is one of the most important that has ever been taken in Alameda county and by far the most important act performed by the Tax Association."

The proposed plan of making a careful and systematic investigation of the county's financial condition, the purpose of which is to recommend the formation of a county government in various parts of the United States and with which the Tax Association has been in correspondence. Among the supporters of the plan are Elton Lower and Major James Miller of the Civil Service Commission of Chicago, Henry Brereton, director of the Bureau of Municipal Research of New York; E. K. Gilchrist of the Short Ballot organization of New York.

Professors Reed, Plehn and Jones are men of wide experience in public affairs.

LETTER FROM REQUA.
The following letter was sent to the men who joined the charter committee by Requa:

On behalf of the executive committee of the Tax Association I am writing you to request you to serve upon a committee organized under the auspices of the Tax Association for the purpose of preparing and presenting to the people of Alameda county a tentative charter. The plans for the committee are:

First—The committee to consist of about fifteen men representing the county and the cities of the county.

Second—As soon as the committee has been formed a meeting will be called to consider the next step. The meetings of the committee will be held in the evening from 7:30 to 9:30 or 10 o'clock.

Third—Following the meeting of the committee and its organization the raising of a sufficient sum of money to carry on this work.

Fourth—The appointment of a manager, to be selected after careful investigation, should be considered. The manager should be given the necessary expert help and investigate each municipality and the county, compiling the figures of the present costs and methods of doing business.

With all the information at hand a proposed charter should be blocked out by the committee calling, in consulting capacity, any local man of knowledge on any particular subject would give him the standing of authority.

Subcommittees might be formed for the study of certain specific departments such as law, health, police, fire, etc. The subcommittees in turn would report to the general committee. When this document is finally blocked out I would suggest bringing before the committee an expert to prepare the final draft of the charter.

Will you give a part of your time for the benefit of the community?

STATEMENT ISSUED.

The following statement was issued by the executive committee of the Tax Association:

"In placing the preliminary work toward bringing about a federated city and county government in Alameda county in the hands of the charter committee, the Tax Association has fully delegated to this committee the responsibility of bringing about one of many contemplated reforms. The Tax Association is organized for the sole purpose of reducing the cost in the administration of the county, not, however, by a niggardly policy, but rather by the elimination of all duplicated effort, by raising the public service standard and by securing a dollar value for the dollar spent."

"In other words, it is not a saving by impeding progress, but greater progress for the same expenditure."

"The proposed new county charter is but one of the many things affecting public nature that is under consideration by the Tax Association. At the present time it is the most important that cannot be effected in the administration of public affairs without a revision of the antiquated system of county government under which our public officials labor at the present time."

"The scheme proposed by the Tax Association does not contemplate any county division, any interference with the right of any municipality or any district to administer its local affairs as it sees fit, but provides that all work which is done in common by city and county shall be performed by one central department or bureau. It is proposed that these bureaus shall work toward a common end and be directed in their work by a central authority to which the people for every official act."

NO DODGING ISSUE.

"In the scheme as outlined by the Tax Association it will be impossible

center of Adrianople, Scutari, Janina and Thessalonica lines."

The only hope of peace, the correspondent adds, now seems to lie in the fact that the demands of the allies probably were determined upon before the unsuccessful attacks were made by the Bulgarians on the Thessalonica line during the first three days of this week.

REPORTS DIFFER.

SOVIA, Bulgaria, Nov. 21.—The Turkish cruiser Hamidieh, which was attacked today by Bulgarian torpedo boats in the Black Sea off the Port of Varna was hit by a torpedo. The vessel however put out to sea on being joined by another Turkish cruiser. Four attacking torpedo boats returned to Varna with damaged smokestacks.

CONSTANTINOPLE, Nov. 21.—The Turkish cruiser Hamidieh in the Black Sea this morning two Bulgarian torpedo boats are asserted to have been sunk and two other torpedo boats badly shattered. The Hamidieh is said to have escaped practically without damage.

TALES OF BRUTALITY.

VIENNA, Nov. 21.—The Reichspost sent instructions to Lieutenant Wagner, its correspondent, to proceed to Pristina, but the Serbian government prevented him from going. While staying at Nish, Lieutenant Wagner reports that he heard well nigh incredible details of the barbarities committed by the Serbian troops on the Albanians. The Red Cross doctor with the Serbian army told him:

"The Serbians gave no quarter. All the Albanians, armed or unarmed, as well as the women and children who fell into their hands, were mercilessly killed. General Stephanovich, the Serbian commander, had the Albanians captured at Kratova formed into two rows and shot dead with machine guns, the general saying: 'We must exterminate these Austro-Hungarian favorites.'"

WOMEN KILLED.

"General Zivkovich also had 950 Albanians and Turkish notables cut down near Sienitz. After the battle of Kumanova numerous wounded Albanians and Turks were buried with the dead. In the Serbian fortress of Nish several Albanian women suspected of throwing bombs at the Serbian troops entering Verisovitz were killed by the Serbian troops, who battered in their skulls with the butts of their rifles. Another Turkish prisoner was eaten to death in the hospital at Nish and another was maltreated and killed by the Serbians until he was dead."

SUMMONS AMBASSADOR.

BERLIN, Nov. 21.—Osman Nizami Pasha, Turkish Ambassador to Germany, was ordered to Constantinople today to assist in the peace negotiations.

LIFE AND DEATH BATTLE.

LONDON, Nov. 21.—Martin H. Donohue, in a long dispatch to the Daily Chronicle describing Tuesday's battle says:

"The Turks were fighting a life and death battle, and the battle was the seriousness of his position. If the Bulgarians succeeded in breaking through the left and turning the Turkish flank the enemy could possess the main road to San Stefano, thus cutting off the Turkish communications."

"All day Sunday, although subjected to severe punishment, the Turks fought with far more steadiness than at Lule Burgas."

"The artillery was better served and the gunners better husbanded their ammunition."

"Monday I could see that the Turkish outer line of defenses had been abandoned and the Bulgarians were shelling the second line upon which the Turkish infantry had retired. It soon was clear that the Bulgarians had mounted guns in the captured position. The shrapnel began bursting over the hills. Closer and closer swept the storm of death until it burst in fury over the Turkish camp and the reserves."

LINE IS SEMI-CIRCLE.

"The Turkish line of defense at Thessalonica was a semi-circle presenting a continuous front. It was broken in the center where the two would be isolated. This apparently was what was happening. The Bulgarians had captured the outer lines of defenses and established themselves at the center of the semi-circle and were like a triangular wedge being driven into the Turkish lines."

"I learned that the Bulgarians had rushed the outer line at 1 o'clock in the morning after a feeble resistance from the demoralized Turks, and now were shelling the Bulgarians who were still hammering away at the object of terrorizing the Turkish infantry."

"During the day no infantry attack was delivered, the redoubts being carried under cover of darkness at the point of the bayonet. The Bulgarians were still hammering away at the Turkish defense and advancing relentlessly on their objective—the road to Constantinople."

"As night fell, an ever-thickening stream of Turkish deserters was leaving the Turkish lines."

BLAMES OFFICERS.

LONDON, Nov. 21.—The Salonika correspondent of the Post attributes the Turkish debacle above all things to military incompetency and inefficient officers. He says the rank and file were fine fighting material, but instead of their officers being old hand men of the villages in whom the men had implicit confidence, the present

strength on the Mahmoud Pasha lines that they look as though they would be able to resist indefinitely any attempt of the Bulgarians to approach them if the enemy's forward movement should continue as extended as it has been during the last few days. The Bulgarians have retired to the hills in the immediate vicinity of Thessalonica village and the Turkish troops have re-occupied some villages on the plain facing the Hamidieh forts. Whatever may be the importance of this movement it has acted as a strong tonic to the spirit of the Turkish troops."

30,000 ESCAPE.

ATHENS, Nov. 21.—Greek soldiers occupied the Turkish town of Florina to the south of Monastir, and cut off the rear guard of the Turkish army retreating from Monastir after that city's capture by the Serbians. Large quantities of ammunition and stores fell into the hands of the Greeks. The Turkish soldiers who succeeded in escaping through the Serbian lines around Monastir number about 30,000.

CRUISERS AT GIBRALTAR.

GIBRALTAR, Nov. 21.—The United States cruiser Tennessee and Montana arrived here this afternoon. They are coaling preparatory to proceeding to Turkish waters for the protection of American citizens in the Ottoman empire.

ABANDON PARTITION.

LONDON, Nov. 21.—The Balkan allies have definitely abandoned the idea of the partition of Albania, according to a Sofia despatch to the Daily Mail. They will consent to Albanian autonomy and an autonomous administration will be set up by stages with the aid of the Balkan states.

POWERS BLAMED FOR SLOWNESS.

LONDON, Nov. 21.—The Constantinople correspondent of the Times quotes Kamil Pasha, the grand vizier as complaining bitterly of the dilatoriness of the powers which he says might have saved the lives of thousands by securing an armistice.

Kamil Pasha asked whether the powers would have shown the same indifference if the fortune of war had favored the Turks. The Turkish army had occupied Bulgaria, or would the powers have forced Turkey to oust Bulgaria and as on previous occasions, despoiled her of the fruits of victory? According to the same correspondent the number of casualties in the action so far does not exceed 1500.

BLOODY BATTLE.

BELGRADE, Serbia, Nov. 21.—Twenty thousand of the 80,000 Turks who defended Monastir were killed or wounded in the four-day battle that preceded the capture of the city by the Serbian army. It was estimated today. The Serbian loss was almost as great. In the defense of the fortress the inhabitants of the city fought with great ferocity, aided by the Turkish regulars who had been armed with rifles provided by the regular army. The Turks had 100 cannon.

The brunt of the attack on the fortress was borne by the Serbian infantry. The men waded breast deep in the water of the surrounding marshes and took position after position by sheer dogged determination. The Turkish troops on Tuesday of this week made a last desperate effort to break through the surrounding Serbian cordon and in measure succeeded. The fighting was very severe and in the end the Turkish troops were absolutely beyond the control of their officers, each man feeling the way he thought he should take. Many of them fell into the hands of the Greeks from Salonika.

The battle is described by some of the officers present as one of the bloodiest encounters of the war. It extended over a line thirty miles long. The Turks in reply to each assault of the Serbians made fierce counter attacks, but always were repulsed.

WARSHIPS IN ACTION.

LONDON, Nov. 21.—The Bulgarian losses in dead and wounded during the fighting at Thessalonica totals 8000, according to official advices telegraphed by a special correspondent from Constantinople today. Terrible damage was done to the Bulgarian column which attacked the Turkish left wing, particularly by the shells from the Turkish warships. One of these fell on a Bulgarian ammunition train, which exploded, resulting in great loss of life.

VIENNA TROOPS BELIEVED.

VIENNA, Nov. 21.—Emperor Francis Joseph expressed his admiration at the way the Bulgarian troops had behaved during the war. In the course of a speech to the Hungarian delegates at a banquet last evening. On the other hand, however, he majestically declared he could not understand why the fortunes of war were so unfavorable to the Turks.

Referring to the dispatch of an Austro-Hungarian consular official to investigate the situation at Pristina, the emperor expressed the hopes that the reports published regarding the Serbian treatment of the Austrian consul would prove exaggerated and

scope was mingled with a flow of oratory and sparkling humor, in which Sir Thomas learned something more about his exceeding popularity with Californians, and Californians learned something about the interest of the great yachtsmen in the Pacific coast and the Panama-Pacific International Exposition.

Yacht models were hung about the banquet room flying the colors and pennants of the sailing clubs whose keels cut the blue surface of San Francisco bay.

Over the entrance to the banquet hall was hung the flag which has flown from the mast trucks of half a dozen old-famous Lipton yachts. It is gold and green with the emblem of the shamrock.

COLORS DRAPED.

The colors of the Royal Ulster Yacht Club, under which Lipton sailed his first yacht, the Erin, were draped across a skiff which was suddenly wheeled into the midst of the banquet. Sir Thomas sat at the banquet board between Harris and President Charles C. Moore of the Exposition. Responses to toasts and songs of America and the British Isles kept the banqueters until midnight.

At the Presidio there is a brigade review in Lipton's honor.

Sir Thomas will dine with Captain and Mrs. Crimmins at their quarters in the Presidio and the day will conclude with a grand ball given at the Presidio Club.

REALTY ACTIVITY AT TWELFTH AND CASTRO

D. F. Minney reports the sale of the Moran vacant property, on the north side of Twelfth street, 100 feet west of Castro, for \$12,100. The purchaser is Roy Block, a local investor who will probably erect a building on the property in the near future. The price obtained for the property was approximately \$350 per foot, or \$18.55. The adjoining property on the northwest corner of Twelfth and Castro recently sold at a good figure, and Minney reports renewed activity in this street. He has a couple of other large deals pending in this immediate vicinity.

Minney also reports that the expectations of a business block on the property he is interested in on the southwest corner of Twelfth and Castro streets, which will contain eight stores below and about fifty rooms above, plans for which are completed, and will probably start construction within thirty days.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood or anemia is a common ailment, especially in the case of those who work in ill-ventilated factories or who are shut up indoors in winter with a coal stove burning up the oxygen or emitting carbonic oxide gas. Thin blood, or blood which lacks the red blood corpuscles, in anemia people may have been caused by lack of good fresh air breathed into the lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense nervousness and heart trouble at all times, and will probably find relief in the use of Dr. Pierce's Great Peppermint Cure, which has given satisfaction for over 40 years.

The Third Annual Convention Begins Sessions; Harris for Presidency.

FRESNO, Nov. 21.—Nearly 200 delegates from all over California are in this city to attend the third annual meeting of the State Bar Association, which was scheduled to open at 2 o'clock this afternoon.

According to precedent, the place chosen as the meeting place of the association is also honored as the home of the candidate for president. Attorney M. K. Harris of this city is the candidate for president, to succeed C. L. McLaughlin of Sacramento.

Attorney Frank H. Short of this city was scheduled to make the welcoming address and State President McLaughlin made his annual address this afternoon, the latter's subject being "The Lawyer." This evening Superior Judge Peter J. Shields of Sacramento county will speak on "The Judicial Office." Further addresses will be made tomorrow and the convention will close Saturday with an afternoon of sightseeing.

EVOLUTION OF STREET CARS SEEN IN EXHIBIT

NEW YORK, Nov. 21.—The street magnates of New York city turned aside from their daily routine yesterday to furnish the city with an unique parade. It was a procession of street cars showing the types that have been in service in this city from the time of the old horse drawn vehicles to the double-decked types of cars that are soon to be put into operation on Broadway. Nearly 70 distinct types of cars have been used in New York since the first street railway was established. Horse cars were followed by cable cars, and then by electric cars of many varieties, the latest being the pay as you enter, the hobbie skirt or stepless car, and the double-decker.

IDENTIFIED AS BANDIT

MEDFORD, Ore., Nov. 21.—Goldie Brownlee, alias S. C. Smith, was identified here last night by Sheriff Elmer of Siskiyou county and by George O. Grady, J. Adams, A. L. Toobis and E. D. Ozier of Hill, Cal., as the man who held up the Warren saloon in Hill last Saturday. Brownlee came to Medford Monday and aroused the suspicion of the police when he began to spend money with a free hand. Brownlee, the authorities say, confessed last night.

Money-Saving Recipes

(Aunt Ruth's Household Hints)

"Electrolysis is expensive and painful. Plain delectable removes superfluous hair. Mix a little delectable with enough water to cover the hair, apply and leave on for a minute or two, then wipe off, wash the skin and the hair will be gone."

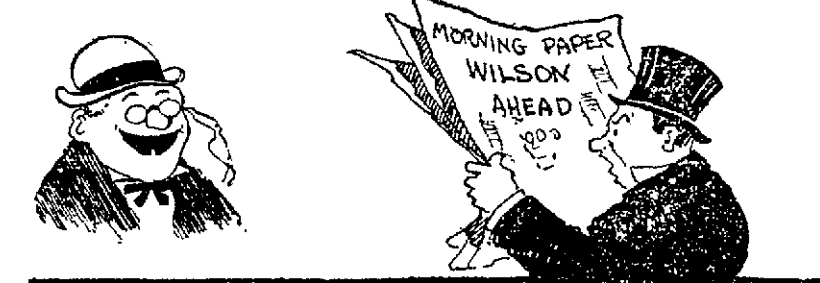

"Regular and well colored eyebrows and eyelashes add beauty to the face. Thin and straggly lashes and brows should be gently massaged daily with pyroxin. This encourages their growth and they soon will be lovely."

"Aches and pains destroy beauty. Mother's Salvo is penetrating and enters the pores at once giving almost instant relief. Just rub on briskly and it will have a comforting, soothing effect on pains and aches in back or joints, sore muscles, bruised children's cold in the chest, rheumatism or neuralgia."

"Glossy, well kept hair is always admirable, but frequent washing dries and deadens the hair. Any woman can keep her hair light, fluffy and beautifully lustrous by dry shampooing. Mix four ounces of powdered orris root with a package of thorax, sprinkle a little on the head, brush out, and your hair is clean and wavy. Thorax removes oil, dust and dandruff."

"A complexion beautifier that will not rub off or show like powder is made easily by dissolving a package of mayonnaise in a half pint of witch-hazel. Gently massage face, neck and arms with this lotion daily, and the skin will be soft, lovely, smooth and satiny. Mayonnaise prevents the growth of hair."

BETTERS HAVE HAD AN AWFUL TIME, AND SOMEBODY MUST LOSE WAGER SOON

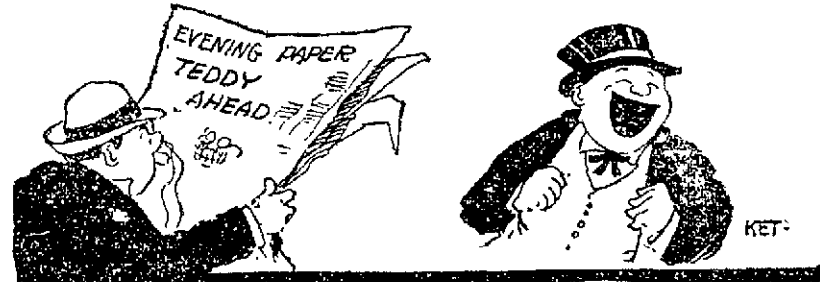

By GERALD P. BEAUMONT.

At 8 o'clock Bill laughs at me and at 4 I shout ho-ho! For you see we made a darn fool bet on the way the state would go, And if Wilson won, why Bill he swore to shave the top of his head. While I couldn't shave for a month or more if the state should go for Ted.

So every morn at the break of dawn Bill runs to the old front door, And he laughs in glee as he shows to me that Ted is behind once more, And I feel my phiz where the smooth skin is and the bristles are doomed to grow.

And alas and alack the world is black and my heart is filled with woe.

But sharp at 4 I pass the door to read the evening score, And my spirits rise to the sun-kissed skies, for Ted is ahead once more, Then I go to Bill and I laugh until my sides are about to burst, For of fancy sights and unholy frights, bald Bill will be quite the worst.

But Bill and me would be pleased to see the end of the old see-saw, For our nerves are bad and our tempers mad and our dispositions raw, Today Bill's won and I'm undone, yet I'm there with a guarantee That tomorrow noon they will change the tune and the laugh will be then with me.

MOUNTED BANDIT WOUNDS VICTIM

Attempted Robbery Takes Place on the San Bruno Road.

SAN FRANCISCO, Nov. 21.—A masked bandit, carrying a nickel-plated revolver and standing beside his horse, which was hitched to a fence rail, held up John Thomas, a laborer, late last night, but got no coin for his pains. The attempted robbery occurred on the San Bruno road, not far from the Seaside Hotel. Thomas was on his way to this city and was walking in the middle of the highway when he was approached by the thug and commanded to throw up his hands. Instead of complying he threw himself on the robber and tried to wrest the weapon from him. The highwayman was too strong for him, however, and struck him on the face and head, inflicting deep wounds. After searching his victim's pockets the bandit made his escape and Thomas dragged himself to the San Bruno car line and was taken to the Harbor Emergency hospital for treatment.

ASK PROTECTION AGAINST INDIANS

WASHINGTON, Nov. 21.—A party of Indian service irrigation engineers working in Pima county, Arizona, have appealed to the Indian bureau for protection against the attacks of 75 Papago Indians and the Arizona Commission. Abbott has directed the agency officials in Arizona to co-operate in all the assistance necessary.

DISTRIBUTES KISSES AMONG FAIR JURORS

TACOMA, Nov. 21.—Flugs and kisses for three women jurors and hand-shaking for the men made up the final picture yesterday in the trial of J. Matthew Murray, a local attorney, prosecuted on a charge of defrauding an ignorant client. The attorney's young wife gave the kisses and they followed a verdict of not guilty, capping the climax of a day in court made sensational by the defendant's personal appeal to the jury, in which he broke down and wept, the women on the jury doing likewise. A second charge, the result of a Bar Association inquiry, is on the docket against Murray.

DIES AT FUNERAL. ST. JOSEPH, Mo., Nov. 21.—Mrs. Edwin Beck, one of the pioneers of Buchanan county, whose home was at Saxton, died in an automobile yesterday just as she was about to alight to attend the funeral of Samuel Stewart, an old resident of St. Joseph. Mrs. Beck was the daughter of Posey N. Smith, the first sheriff of this county.

WOODROW WILSON CARRIES KANSAS

TOPEKA, Kas., Nov. 21.—Woodrow Wilson carried Kansas by a plurality of 23,547 over Roosevelt. Taft ran 50,000 behind Roosevelt. The official figures given out by the secretary of state today follow: Wilson (Dem.) 143,670; Roosevelt (Pro.) 120,123; Taft (Rep.) 74,844; Debs (Sec.) 26,570.

Roosevelt carried 31 out of the 107 counties and Taft two. Debs carried Crawford county, the first time in the history of the State that a Socialist has carried a Kansas county.

NEW KING'S DAUGHTERS' HOME TO BE DEDICATED SUNDAY

HANDSOME STRUCTURE WILL HOUSE INCURABLES AND HELPLESS

KING'S DAUGHTERS OF CALIFORNIA HOME FOR INCURABLES, TO BE DEDICATED NEXT SUNDAY AFTERNOON AT 1900 BROADWAY.

The King's Daughters of California Home for Incurables which is to be dedicated next Sunday afternoon at 3 o'clock, is to be when completed one of the handsomest and most conveniently equipped buildings of its kind on the coast.

The original plans for the home located at 1900 Broadway called for a \$100,000 structure but the directors were unable to collect more than \$5,000 of the amount pledged. While the new building is spacious and commodious the home will be obliged for some time yet to make use of one of the wooden wings of the old structure.

At the dedication ceremonies Sunday a large number of clergymen from the various denominations in the city, the major prominent business men and heads of civic organizations will attend.

CORNERSTONE LAID IN MAY

The cornerstone was laid May 12 of this year. The finished building comprises two stories and a high English basement where business activities of the directors and staff will be carried on.

The main part of the old building was condemned by city authorities which caused the directors to make plans for a new building for which they raised a

considerable sum in a ten-day campaign. The first floor will be devoted to male patients and the second to women. Each floor will provide for twenty-five patients and will be equipped with the necessary bath and lavatory arrangements.

There are to be two wards containing four beds each on both floors. Each room is bright and sunny, provided with electric lights, pushbuttons and commodious closets. In the wards there is a separate closet for each patient. The rooms are 10 by 15 feet and have a waistcoat of incrusta four feet six inches in height. An electric elevator and staircases connect the different floors. A hall ten feet wide by 135 feet long runs through the building on each floor. Sun porches are a feature of each floor.

A large diet kitchen with space for arranging 100 meals, trays and equipped with a dumb waiter, cooling closets and steam for keeping food warm is on the first floor.

BASEMENT QUARTERS.

In the English basement are the reception and directors' rooms which can be thrown into one large compartment. A large linen room, pharmacy kitchen and dining-room, telephone room, a mortuary apartment and the superintendent's

apartment. Adjoining the main building is a separate building for the nurses which was rendered necessary by the condemnation of the old structure. It is still in process of completion. The exterior of both buildings is brick, finished with terra cotta. The brick is laid in Flemish bond. The structure is topped with an Italian tile roof. Miss Julia Morgan designed the structure. J. H. Kelly had charge of construction. D. B. Farquharson was contractor.

Directors of the home include: President Mrs. Matilda Brown, Mrs. C. C. Clay, Mrs. H. M. Tenney, Mrs. H. H. Whitman, Mrs. E. M. Van Slyke, Mrs. Adam Gilliland, Miss M. C. Raymond, Mrs. C. A. Willard, Mrs. C. B. Morgan, Miss Amelia S. Good and Mrs. Richard R. Hardin.

HELPLESS CRAFT IS NEAR DISASTER

Gas Tug Has Narrow Escape From Collision With Bridge.

While running west along the inner harbor channel this morning the engine of the gas tug Rustler went "dead," leaving the craft helpless twelve miles on the job at the time of the accident and tug began drifting at a fair rate of speed toward the Harrison street bridge. It looked as if the craft would strike the bridge which would not only have resulted in considerable damage to its own hull but would probably have put the bridge out of commission tying up traffic between Oakland and San Francisco by way of Alameda.

Fortunately, the bridge opened for another vessel to pass into the inner harbor and the helpless tug drifted by without striking the bridge. The Rustler's plight was not seen by the operator of the Webster street bridge and when within but a few yards of crashing into the helpless craft the bridge which was closing was brought to a halt by a hail from the deck of the Rustler.

Immediately the motors of the big structure were reversed and the tug narrowly averting a second smash, drifted through the bridge. Her plight was discovered on shore and the gas tug United No. 2 of the United Engineering works dispatched to her assistance. The tug No. 2 took the Rustler to the city wharf at the foot of Franklin street where repairs to the balky engines will be made.

12 REBELS, INCLUDING LEADERS, ARE KILLED

EL PASO, Nov. 21.—In a battle near Madera Chihuahua, federal troops under General Jose Blanco defeated yesterday twenty rebels commanded by Ricardo Terrazas and Juan Ramos killing twelve rebels, including both leaders, according to a report made today to General Tracy Aubert in Juarez. The federal losses were not given. The reported killing of General Antonio Rojas by Blanco's rurales is denied in Juarez.

CITY SECURES OPTION ON 16 ACRES FOR PARK

Papers setting forth that the city of Oakland has obtained an option for the purchase of property belonging to the old California college in East Oakland have been filed with County Recorder Brown. The option calls for a payment of \$10,000 for about 16 acres of land within six months from September 12. It is intended by the city government to use the land for park purposes in the event that it is acquired.

FINE LEGAL POINT INVOLVED IN CASE

Accused Chauffeur Declares He Will Fight Charge of Theft.

L. H. Brown, a chauffeur, was arraigned before Justice R. B. Tappan sitting for Judge Mortimer Smith this morning on a charge of felony embezzlement preferred by L. C. Larsen, 474 Twelfth street. The case is a peculiar one, according to attorneys, and some fine legal points may have to be threshed out before it is decided.

Brown drove a machine for Larsen and according to the latter discovered that several attachments could be placed on the machine if it were taken within the jurisdiction of the Los Angeles county court. Larsen believes that Brown received a promise of a liberal reward if he would take the auto to Los Angeles.

Brown drove the auto to Los Angeles, from which place he wired to Larsen that the machine had been hired by two duck hunters for a week, thus delaying police pursuit by Larsen. Then he completed the journey to Los Angeles.

On arriving in Los Angeles, Brown went to a garage, where the auto was attached by several creditors. Larsen learned that his machine was padlocked and chained in Los Angeles and obtained a warrant charging Brown with felony embezzlement for taking the machine away.

Brown was arraigned this morning and the case was continued to November 23 to be set. Brown declares that he will fight the charge. Brown was arrested and brought back by Inspector Thomas Gallagher who had worked with Inspector H. E. F. Green on the case.

Autopiano Triumphant

Over 3000 Autopianos in Daily Use on the Pacific Coast Alone

A Record That Establishes the Autopiano Supreme

It is not mere chance that gave to the Autopiano the Highest Grand Awards at the International Musical Exhibition at Rotterdam, at the International Musical Exhibition at Turin, at the Festival of Empire Imperial Exhibition, London, at the Alaska-Yukon Pacific Exhibition, Seattle, and at the Manchester Coronation Exposition. It was not chance that caused Pope Pius X to officially bestow the highest honors on the Autopiano. It is not mere chance that has given to the Autopiano the highest awards wherever exhibited.

And surely it is not an accident that has resulted in the U. S. Navy and Army selecting, above all others, and having in daily use, over 75 Autopianos.

Not only is the Autopiano the Pioneer Player Piano, not only has it won the Grand Highest Awards wherever exhibited, but there are more Autopianos in actual daily use in the homes of discriminating music lovers throughout the world than any other makes of pianos or player pianos combined.

Where else in all the world is there such a record—where else can be found such competent, such conclusive evidence of superiority?

It is a striking example of what merit will do.

At no time in the past has Eilers Music House been in position to demonstrate so convincingly the correctness of its merchandising principles, and in the sale of the Autopiano and other high grade player pianos.

Ever since its incorporation it has been the fixed policy of Eilers Music House to give to the public the highest quality in pianos and player pianos at the very lowest possible prices.

Now thoroughly we are accomplishing our aim in most forcibly shown by our price tags right now.

In addition to the now scarcely disputed ability of Eilers Music House to give greater value for the money than elsewhere is the added advantage of the Eilers Music House in that it is a place where the customer can get the best of all the pianos and player pianos in the city at one place and in one store in complete.

I need not say that I am a pianist and I am a pianist in all of the pianos and player pianos in the city. I am a pianist in all of the pianos and player pianos in the city. I am a pianist in all of the pianos and player pianos in the city.

Each and every instrument is obtained at a low price and then sold at a profit. Each and every instrument is obtained at a low price and then sold at a profit. Each and every instrument is obtained at a low price and then sold at a profit.

PRICES A FOURTH LESS

Each and every instrument is obtained at a low price and then sold at a profit. Each and every instrument is obtained at a low price and then sold at a profit. Each and every instrument is obtained at a low price and then sold at a profit.

An exceptionally large number of pianos, pianos which have just been received in part payment for these newest and greatly improved player pianos shown in this exhibition for the first time, can be had at a fraction of their original cost. Some of these are the latest models and can not be sold from new. They will be offered now for \$345, \$425 and \$450 for the regular \$500, \$550 and \$600 instruments.

The very highest priced type player pianos of most lavish construction for which ordinary dealers and consignment houses are compelled to charge \$1050, are here for \$775 and \$832.

FREE MUSIC ROLLS

Further were determined to make this month the largest in the history of the House of Eilers. It will give for this week an extra and full amount of a special gift to every customer who purchases a piano or player piano. It is not a profit of the best of music rolls. Invest with this it is a real deal. If you are not prepared to pay all cash arrangements can be made to deliver the piano in a small first payment and the balance in convenient weekly or monthly installments.

SCORES KILLED IN JAMAICAN STORM

Tidal Wave Add to the Havoc;
Towns Are Laid in Ruins.

KINGSTON, Jamaica, Nov. 21.—The western end of the island of Jamaica has been devastated by a hurricane lasting five days. A great tidal wave has swept over the north and south coasts, practically wiping out Savannah la Mar and Lucrea, both towns of considerable importance. More than forty persons were killed.

All the roads have been wrecked along the southwestern coast and incalculable damage has been done. Communication between Kingston and the center of destruction is not likely to be resumed for a week.

The latest reports indicate that the tidal wave swept over Savannah la Mar and adjacent villages for a quarter of a mile inland. The effects of the hurricane extended along the coast eastward to Black River, about twenty-five miles from Savannah la Mar, where the residential quarter was wrecked.

LONE MAIL CARRIER FIGHTS WHOLE VILLAGE

LOS ANGELES, Nov. 21.—Manhattan Beach, a resort, wants to become an incorporated municipality, but George S. Hoffacker objects on the ground that if such an event transpired he would be damaged by losing a rural delivery mail contract. He objects so strenuously that he has asked the Superior Court to restrain the officials of Manhattan Beach from holding an incorporation election next Monday.

The officials declare that Hoffacker's act is purely selfish and that he does not receive mail enough for Manhattan Beach to warrant resorting to the courts. Judge Walter Bondwell has taken the matter up for a hearing.

VEILED WOMAN BEFORE JURY

Information Sought Concerning Arrest of Witness Against Eddie.

LOS ANGELES, Nov. 21.—The quest of the county grand jury for "inside" information concerning the recent arrest of F. W. Lloyd, formerly a Los Angeles police officer and a state's witness in the coming trial of Guy Eddie, suspended city prosecutor, centered today about Harry J. Raymond, a private detective, and a "mysterious woman."

Raymond, it was said, procured information which caused him to report to the police department that Lloyd was accepting money from Cecil H. Nicholson for alleged protection for a gambling game the latter was said to have operated.

The fact that Lloyd was a witness against Eddie, who is charged with an offense against a young woman, had nothing to do, it was alleged by Eddie's supporters, with Raymond carrying his alleged knowledge of actions attributed to Lloyd to the suspended prosecutor's political and personal friends.

Another person about whom interest quickened was a mysterious woman, richly clad, lightly veiled, but apparently of attractive face, who has appeared as a witness before the grand jury. Even her name is withheld by officials.

SPOKANE, Nov. 21.—Because he did not die, William Goldblatt, a Spokane jeweler, brought suit yesterday against his physician, Dr. C. H. Rohrer, for \$15,000.

Becoming impatient at his failure to die, he consulted eastern specialists and discovered that he was in perfect health.

CREW THE CAPTAIN TO SAVE HIS LIFE

Rescued Marines Tell Thrilling Story; Planter Aids From Shore.

SAN FRANCISCO, Nov. 21.—With his ship pounding to pieces in the breakers off the Hilo coast, Skipper John Nelson of the barkentine Kilekikat, revolver in hand, fought his sailors, because they refused to let him go down to death with his own ship. Then while sea after sea was sweeping over the decks of the ship, the sailors succeeded in overpowering their captain. They took his revolver away from him, bound him with ropes and sent him ashore, ailing and saved him in spite of himself.

Colonel Sam Johnson, one of Hawaii's prominent and wealthy planters, came scurrying along the coast in his automobile in time to see the Kilekikat strike the breakers. There was his life-saving crew in sight. In fact, there was no one else in sight and Colonel Johnson was the only man at hand to help the sailors on board the ship that he knew was doomed.

And the story of how Johnson, single-handed, managed to breast the big breakers until the line thrown from the vessel had been secured to a rock at the base of the cliff which tied the shore.

With the vessel beginning to break up and the big waves washing over her, the men attempted to get a line to shore with the assistance of Colonel Sam Johnson, one of Hawaii's prominent and wealthy planters, who happened along in his automobile.

WORKS HOUR IN SURF

Risking death for an hour, Johnson, lone-handed, managed to breast the big breakers until the line thrown from the vessel had been secured to a rock at the base of the cliff which tied the shore.

With the exception of the skipper, all of the nine members of the crew made their way to shore, pulling themselves along hand-over-hand. One of the men became exhausted and would have been washed away by the waves which submerged the sailors, but Colonel Johnson, at the risk of his life, fought his way out among the breakers and brought the man ashore.

Captain Nelson remained upon his vessel and declared he would not move but go down with his ship. Before the sailors left they pleaded in vain that the skipper change his mind. At one time Nelson came on deck armed with a pistol, and was prevented from shooting himself only after his men had fought for the possession of the revolver.

A few hours later the weather moderated sufficiently to permit two of the men to make their way back to the vessel. When the skipper still refused to come back to safety he was overboarded, bound with ropes and sent to the shore in a sling.

Shortly afterward the storm increased, and the seas washed over the whole ship.

SULZER TAKES 'CHEWING' 'BACCA' WITH HIM

NEW YORK, Nov. 21.—William Sulzer, Governor-elect of New York, is now on the high seas. He sailed away yesterday afternoon on a vacation.

At the pier stevedores who knew him crowded about.

"Watcha got in the handbag, Bill?" "Chewing tobacco and tooth brush. I am going to sea," replied the Governor-elect.

Whereupon he boarded the steamship Princess Anne of the Old Dominion line and sailed for Norfolk.

From Old Point Comfort the Governor-elect will go to Petersburg, where he will make his headquarters for a week or more, while hunting in the adjacent woods for wild turkey.

The Kind You Have Always Bought,

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears the signature of Chas. H. Fletcher.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what is known as "imitation" Castoria, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

Destroying Personal Liberty.

The intrusion of the police power on personal liberty has gone to great lengths in recent years. It has gone to greater lengths than the law sanctions, and nowadays the law sanctions invasions of domiciliary privacy and individual freedom that would have been set down as rank tyranny a generation ago. As far as the law has gone, the police power has arbitrarily pushed its authority still farther. Whether the effort to get at and remedy certain social evils is not going to an extreme that threatens the fundamentals of liberty is a grave question. Two recent cases occur to our minds as examples worthy of examination.

In Seattle two sailors belonging to a United States man-of-war were escorting two young women to the theater when they were held up in the street by two police women belonging to the purity squad. Before the theater party was allowed to proceed the several members were submitted to a searching examination of an extremely personal character. They were forced to give their fair inquisitors a satisfactory explanation of what they had done and what they were going to do. Admitting that the motive for the proceeding was good, the inquisition was none the less an indignity of a most exasperating kind. Apparently the women attached to the police department believed they were empowered to hold up strangers on the street and make them give a satisfactory account of themselves. They regarded the garb of the sailors as suspicious, and proceeded on the assumption that they were unfit associates for the young women they were escorting.

In Houston, Texas, a policeman overheard a young man escorting a young woman make a remark uncomplimentary to the chief of police and demanded an explanation. An altercation ensued. The young man thus accosted denied the right of the policeman to question him or interfere with him. Angered at the policeman's threatening tone and manner he used some profane language. The officer went away and told of the occurrence to another policeman. The two returned and again badgered the man who had given them offense by speaking disrespectfully of the head of the police department. He was finally arrested and taken to the police station, being assaulted on the way and treated to verbal abuse. At the police station he was charged with using vulgar language. Of course the charge was merely an excuse for making an unjustifiable arrest. It is a comfort to add that the chief of police promptly suspended the officers as soon as he learned the facts.

The two cases are typical. Such things are continually occurring, and nine cases out of ten the wrongs committed go unrighted. The American people have become so accustomed to being browbeaten by those in authority that the vast majority of them make no resistance and submit tamely to injuries for which they should demand redress.

The spy system is being introduced in nearly every department of government, and the "third degree" is given in nearly every police station. Men are arrested without legal warrant and then cruelly "sweated" to make them incriminate themselves. It is less majestic to speak disrespectfully to or of a policeman. Grudge arrests are common and it is not an unusual thing for prisoners to be cursed and beaten by arresting officers. Indeed, the attitude of the police toward the citizen is too often that of domineering mastery.

But behind the arbitrary extension of authority by those clothed with it is the tacit sanction given by the public to constant violations of the most sacred of personal rights. We are becoming a nation of busybodies, so eager about correcting the morals of each other that we are losing the essentials of freedom and self-respect. Constituted authority has caught the prevailing spirit and has become dictatorial and inquisitorial. A man's house is no longer his castle. Doors are broken down on the mere suspicion that something wrong may be going on inside. The female police agents in Seattle took it into their heads that two sailors had immoral designs on the girls they were escorting and detained them in the street till they answered a lot of impertinent and insulting questions. In Houston a policeman thinks himself empowered to call to account a citizen who criticised the chief of police in his hearing. So the infection of a pernicious paternalism spreads and corrupts official activity. The prying, peering spirit of an aggressive Puritanism is turning the American people into a nation of prurient Peeping Toms, submissive to police tyranny and to a debasing espionage that corrupts instead of elevates public morals. As a matter of fact, there is more invasion of personal liberty than any country in Europe outside of Russia. Salacious curiosity and graft are at the bottom of much of it.

Defaming the Government.

S. S. McClure, publisher of McClure's Magazine, is advertising himself and his publication by making speeches of a most pernicious character. In every address he makes he asserts that the Federal government is permeated with corruption. He gives no details, merely indulges in loose generalizations which he does not attempt to substantiate. At Berkeley he informed the students of the State University that their government is rotten and that they are living in a carnival of graft.

He is not telling the truth in thus defaming his country. He is doing a vast amount of harm by inculcating the rising generation with the debasing notion that dishonesty is the rule in public life. No greater harm can be done a young man than to make him believe that corruption pervades every department of the government.

Colonel McClure—we believe he has been promoted to that rank since he began to charge wholesale infamy in the administration of public affairs—is sowing the seeds of rottenness by vociferously asserting that the American people are so degenerate that they are governed by thieves. The logic of his pernicious teaching is that it is not worth while to be honest.

We protest. We do not believe the horrible picture McClure draws of our public life is a true one. In our opinion, the government of the United States is as honestly conducted as any in the world; that it is administered in the main by honorable, high-minded and patriotic men, who are cruelly slandered by the calumnies Colonel McClure is spreading broadcast.

If Colonel McClure knows of any instances of corruption let him point them out, so that remedies may be applied, the guilty exposed and punished. But he gives no instances, no specific facts from which a conclusion may be drawn. He is simply poisoning the popular mind with defamatory statements which slander every man in the public service and which cannot be disproved because they are directed at no person in particular.

Uncle Sam, to James Bryce—I Shall Be Sorry to Say Goodby

—NEW YORK TRIBUNE.

A Duty to the Courts Neglected.

Not long ago THE TRIBUNE commented on the mean and squalid apartments in which the police judges are required to hold court. The reasons why the police judges should be furnished with clean, comfortable courtrooms apply with even greater force to the judges of the Superior Court. As the chief judicial officers of the county, they should be provided with courtrooms and chambers befitting the dignity of their functions and the wealth and importance of the county. It is treating the judges with contempt to require them to hold court in apartments meanly and inadequately furnished and lacking the conveniences indispensable to comfort.

Judge Waste has been under the necessity of taking drastic measures to have his courtroom equipped with heating appliances. He has been holding court in cold and discomfort till patience ceased to be a virtue. Jurors, witnesses and attorneys had to suffer the discomforts inflicted on the judge by the neglect to provide his courtroom with heating apparatus.

Serious deficiencies exist in the courtrooms and chambers of other judges of the Superior Court. Such deficiencies should be promptly remedied. Every judicial courtroom should be clean, commodious and properly furnished. The county owes that much to its officers and to its own dignity. Economy that goes to the extreme of making the Superior Judges hold court in uncomfortable and ill-furnished apartments is parsimony, mean niggardliness. It is to be hoped that there will be no need to complain of such neglect in future.

Under the law the Superior Judges have the power to compel the Sheriff to supply proper furniture and equipment for their courtrooms and chambers, but this power was never employed till Judge Waste was driven by continued neglect to exercise it. He had no other recourse. As soon as he issued his order to the Sheriff his wants were supplied at once by the authority that should have supplied them in the first instance. No other judge should be required to take similar steps to get his courtroom warmed and adequately furnished.

Austria not only wants a slice of Turkey, but she denies Serbia's right to the particular slice Serbia has set her heart upon. By some unexplained process of reasoning, Austria claims the right to forbid Serbia from acquiring an outlet on the Adriatic sea. Her argument is the law of force, but it is likely to prevail unless the great European powers decide to interfere in behalf of Serbia. That little power, nor all the allies combined, can resist Austria in case of war. Hence Austria will probably succeed in bullying her weaker neighbor into accepting her dictation. Austria's attitude illustrates how small a part justice plays in the dealings of stronger nations with weaker ones. Submission to wrong is the price of peace, and until the spirit of justice shall prevail in international intercourse, the hope of permanent peace throughout the world is merely an iridescent dream.

The cabinet makers in this neck of the woods are resurrecting all the old has-beens in the political discard and presenting them as cabinet possibilities. Theodore Bell and Rudolph Spreckels are the latest to be trotted out. Why is that elegant son of the mountains, the Hon. T. W. H. Shanahan, the Tall Shanigan of Shasta, ignored? He is a live man. Moreover, he is the longest and loudest of California's favorite sons. The head of the table is wherever he sits, and his voice is the calliope of reform. He is an animated torchlight procession of Democracy pure and undefiled. The old gray mare trotting out of the wilderness cannot create half the sensation that the Tall Shanigan would create in Washington. He is THE TRIBUNE'S candidate for Secretary of War. Beat him if you can.

SHOOTS DIVORCED WIFE AND HIMSELF

Railroad Employee Fails in the Attempt at Ending Own Life.

PORTLAND, Ore., Nov. 21.—Byron Jennison, a railroad employee, shot and probably fatally injured his divorced wife yesterday. He turned his revolver on himself in an attempt at suicide, but the bullet hardly more than grazed the flesh of his left side.

Jennison, from a statement the police say he made, lay in wait for Mrs. Jennison and Victor Palmer, a young man who was escorting her home. As they were passing the Young Men's Christian Association building Jennison, it was said, stepped up to the couple and without a word fired.

Jennison in his statement is said to have denied having shot at his former wife. He declared that he was insanely jealous of her and intended to frighten her.

WILSON REFUSED CARNEGIE PENSION

The President-elect Declared to Be Not Eligible for Honors.

NEW YORK, Nov. 21.—The trustees of the Carnegie Foundation announced yesterday through President Pritchett that Andrew Carnegie had added \$2,000,000 to the endowment of the fund, making the total of his gift \$14,000,000. It was announced that under the growing restrictions of the uses of the fund the application for a pension of Woodrow Wilson, President-elect, of the United States, made when he resigned from Princeton University in 1910, had been refused. It was said on the table without action. The trustees insisted that Wilson's recent political successes had nothing to do with the final action on the application, which was considered strictly as a matter of principle.

Professor Dickinson R. Miller of Columbia issued a statement during the day describing the failure to award a pension to Wilson as a "breach of faith."

Clyde Furst, secretary of the Foundation, at a meeting yesterday, denied that the board discussed the Wilson pension, saying:

"As matters stand now Wilson is not eligible for a pension under the rule of the Foundation, because he is not an active service as a teacher. Should he resume teaching after he leaves public office and later sees fit to make application for a pension I see no reason why it should not be granted if he has attained the age of 65."

President Slocum of Colorado College was elected vice-chairman to succeed David Starr Jordan of Stanford University.

After the meeting the trustees had luncheon with President Pritchett at Delmonico's, Andrew Carnegie being the chief guest. In the afternoon Mrs. Carnegie gave a reception for the trustees and their wives.

JAPANESE GIRL FLEES WITH PORTO RICO MAN

SEATTLE, Nov. 21.—In flight from the father of the girl, a San Francisco merchant, Taka Murakami, a high school student, and Rigo Custodio, a Porto Rican teacher of a school in San Francisco, passed through this city yesterday.

They came here from Tacoma, where they were arrested yesterday on a telegram from the girl's father, which said she was only 17. After their release because of a police error, they fled on which to hold them they came to this city and applied for a marriage license. The girl said she was 19 and Rigo said he was 22. They had a witness who swore he knew them. The license clerk questioned the girl's age and insisted on proof. The couple went to the Immigration Office, where the girl landed when she came to this country. The Immigration Office refused a certificate, and the couple boarded the first train for Vancouver, B. C.

REBEL GENERAL ROJAS IS KILLED

The Powerful Insurrecto Head Meets Death in Encounter With Federals.

MEXICO CITY, Nov. 21.—General Antonio Rojas, one of the most influential rebel leaders and a strong supporter of General Orozco, was killed in an encounter with rural guards, according to unofficial advice to the Government.

The encounter occurred in San Joaquin canyon, in the State of Chihuahua, the rurales being commanded by General Jose Blanco.

The rebel leader, Cheche Campos, operating in the State of Durango, has cut the central railway to the south of Torreon.

The Government insists that conditions in the north are sufficiently improved to warrant the withdrawal of part of the troops for the campaigns in the south. There have been many protests against the withdrawal of the troops.

Jose Perez Castro, a young planter who was prominent in the Madero revolution and later in the Orozco rebellion, has escaped from the Courthouse, where he was taken for trial. His guard went with him, and it is supposed that he will attempt to rejoin Orozco's forces.

CONDUCTOR'S FEET SEVERED BY TRAIN

Series of Accidents Attend the Injury to Railroad Man.

ST. JOSEPH, Mo., Nov. 21.—Harry Purse, a St. Joseph and Grand Island conductor, is in a hospital here with his feet cut off, and Norman Hawkins is suffering from serious injuries as the result of a series of peculiar accidents yesterday.

Busse had one foot severed and the other crushed by a train at Stoute, Kans. He was being pushed by St. Joseph in an improvised special train made up of an engine and two cars, when it jumped the track near Elwood, Kansas. Engineer Hawkins was seriously hurt.

An ambulance was used to take Busse to the hospital and Hawkins was brought to St. Joe on a hand car. Busse lives at Highland, Kans., thirty miles from St. Joe. Mrs. Busse was notified of the accident by telephone and was told where her husband had been taken and she hurried to this city in an automobile, reaching the hospital before her husband.

MAN ELECTROCUTED IN HEAVY WINDSTORM

RIVERSIDE, Nov. 21.—A heavy wind storm which prevailed here yesterday was responsible for the death of one man and probably fatal injury to two others. Gustav E. Oberg, 60 years old, was electrocuted while driving to his home in the outskirts of the city, when an electric light wire blew down on him. He died instantly. His son Frank, 28 years old, also caught in the wire, the live wire and was so badly shocked and burned that his death is expected.

Two fires were caused by the wind, and while a fire engine was responding to an alarm it struck James Burke, who was crossing the street. Burke was badly injured that he is not expected to live. The storm, which was general throughout this district, did immense damage to green grocers, thousands of trees having been beaten down and broken by the wind.

WOULD VOID MARRIAGE BECAUSE OF RACE

SEATTLE, Nov. 21.—Captain J. J. Carroll, port superintendent for the Grand Trunk Pacific, yesterday filed a petition in the probate court for the removal of Elizabeth Ann Carroll, his stepmother, as administratrix of the estate of his father, alleging that under the California law she was not his father's legal wife. She was appointed last May to settle the estate, which amounts to \$20,000. Since then Captain Carroll says he has discovered that his stepmother is not his father's legal wife, but a woman of color, and that under California law, in which state the marriage was performed, she can not be his father's legal wife, because she is amendable to the prohibition of the marriage of white persons with negroes and mulattoes.

U. S. A. ORGANIZER IN WEST. SACRAMENTO, Nov. 21.—Captain H. D. Thomson, who is in command of the division of Military Affairs, United States Army, detailed from Washington to spend thirty days with the National Guard of California, was in conference today with Adjutant General George H. Thompson, the military administrator of the California Guard, with special reference to field hospital and ambulance companies, so that they may be made to conform to the regular army standards.

This Home-Made Cough Syrup Will Surprise You

Stops Even Whooping Cough Quickly. A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly, and will usually cure the most stubborn case in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir 2 minutes. Put 2 1/2 ounces of Pinex (2 cents) worth in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps and a cough.

You probably know the medical value of pine in treating asthma, bronchitis, etc. There is nothing better. Pinex is the most valuable concentrated compound of Norway pine resin, rich in gualacal and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

MEXICANS CLASH WITH AMERICANS

Several Wounded and One Is Killed in Brawl on Boundary.

WASHINGTON, Nov. 21.—Much bitter feeling exists between American citizens and Mexicans along the international boundary line in Texas and New Mexico, and a number of serious clashes have occurred, soldiers participating in one brawl, in which several men were wounded and one Mexican was killed.

Vigorous measures are being made to prevent the Mexicans crossing the border, and all armed rebels will be taken into custody when found in American territory. The Mexican army is given the cause of much of the trouble, according to dispatches to the war department.

WOULD SELL WATER PLANT TO TULARE

TULARE, Nov. 21.—G. W. Quill of San Francisco, who is the stockholder of the Tulare City Water Company, arrived yesterday from the north for the purpose of selling the present privately owned water plant to the city. Bonds in the sum of \$100,000 for a new plant were recently voted by the city.

Shortly after the vote was taken, a state of the private plant offered in full for \$50,000. Reply was made by the city officials that they consider anything over \$50,000 as out of reason. A counter proposal was then made that the question be submitted to arbitration, but this was also voted down by the city council.

SON OF DR. JORDAN IS SUED BY AUTOIST

SAN JOSE, Nov. 21.—Suit against Knight Jordan, son of the president of Stanford University, and W. L. Waters, owners of a garage at Palo Alto, to recover the price of an automobile was heard today by Peter Mullen. Mullen stored his automobile in the garage of Jordan & Waters, it is alleged. It was taken from the storage place by W. L. Waters, an employee of the garage, and was wrecked when Manning mistook the Southern Pacific right of way for the main highway and came into collision with a train. Manning was charged before a justice of the peace at Palo Alto with taking an automobile without the owner's consent.

W. L. H. Hart opened the case for the plaintiff and held the defendants responsible for the loss of the machine, which was practically new and valued at \$1220.

BOWELS SLUGGISH, STOMACH SOUR GASSY, UPSET? CASCARETS GREAT!

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble is ended. A Cascaret tonight straightens you out by morning.

10 Cents. Never grips or sickens. "CASCARETS WORK WHILE YOU SLEEP."

ARRIVES TOO LATE TO SAVE HUSBAND

STOCKTON, Nov. 21.—The failure of Mrs. Oscar W. McClain of this city to make her appearance in the Superior Court at 10 o'clock yesterday morning is the probable reason why her husband will have to spend two years at Folsom. He pleaded guilty to grand larceny, having stolen a motorcycle, and his pretty young wife was given until yesterday morning to produce letters showing his past good character. She did not show up at 10 o'clock and in response to McClain's tearful entreaties the court allowed her ten minutes' grace.

She failed to arrive and sentence was imposed. The prisoner collapsed and a few minutes after he had been led from the courtroom the woman burst excitedly into the room. She had misunderstood the hour.

NEW YORK, Nov. 21.—Florence Ziegfeld, who has made a great fortune in staging theatrical productions in which beautiful women were the predominating figures, stated the house show last night "offen minutes" after I entered the auditorium that Mrs. Ziegfeld, "I was struck by the beauty of Miss Katherine Elkins. I wished to be fair to the remaining thousands of women who were present in the house. I was around the arena, up and down the aisles and even in the gallery. I saw no other woman who could equal her for wonderful personal charm."

Miss Elkins stands out as a genuine. She is a typical American woman of refinement and beauty.

THREE-CENT LAW IS ATTACKED IN ARIZONA

PHOENIX, Ariz., Nov. 21.—In opening their fight on the enforcement of the 3-cent fare law, which was adopted by the voters at the election November 5, the Southern Pacific railroad and its subsidiary have to spend two years at Folsom. The Federal District Court that the secretary of state did not comply with the law governing the presentation of referendum or initiative measures to the people. The railway attorneys asserted that the secretary of state did not begin until fifty-three days before the election, whereas the constitution directs that the text of such measures must be submitted ninety days before election.

**BOMBSTER PROVES
PUZZLE TO POLICE****Riedelbach Believes That He
Is Greatest Man in
the World.**

SAN ANGELES, Nov. 21.—Carl Riedelbach, the German bombmaker who has been in the municipal police building Tuesday when we walked in wearing a monkey face, and carrying enough dynamite to blow up a city block, continued today to puzzle the police with his curious mental state.

Undoubtedly suffering from paranoia, the peculiar monomania that demonstrates itself in exaggerated ego and an overwhelming desire to work destruction, Riedelbach believes himself to be the greatest man in the world. But he says his bachelor loneliness produced the thought that came to him of wholesale destruction and that the love of a wife and the caresses of little children would have switched the mechanical genius he possesses into some other channel than the making of infernal machines, which were constructed to go off "not when you pulled the trigger, but when you took your hand off the trigger."

"Never," he answered. "How could I have been? No woman ever loved me."

"I wanted a wife, children, home," he added. "Had life given me all of those, I never would have thought of what I tried to do. There are many men like me."

The authorities have not yet determined just what to do with Riedelbach but it is probable that he will be sent before a lunacy commission and confined to an asylum.

Riedelbach was arraigned in the University municipal court today and charged with a violation of Section 601 of the penal code. This section of the code prescribes penalties of from one year to life imprisonment for conviction of having deposited dynamite in any place where a human being congregates with malicious purpose to kill or maim.

The arraignment of the dynamite maker was the result of a decision today on the part of the authorities to try to send Riedelbach back to prison rather than to an asylum, because it was believed society would be safer with the man in prison. None of the state hospitals for the insane have sufficient safeguards against the escape of homicidal lunatics, the police officials stated.

Riedelbach was taken from his cell in the jail to the University station, where he was arraigned, and the authorities said they had no symptoms of a skull fracture, and said the pain in the head caused by the blow of Detective Hosick's "billy" had disappeared. His preliminary hearing was set for next Monday.

MOTHER HAS BEEN FOUND.

SALT LAKE CITY, Nov. 21.—The mother of Carl Warr, whose dynamite escapade startled Los Angeles, has been found here and talks freely of her son. She attributes his uncontrollable fits of rage to the head administered by his stepfather when he was 12 years old.

"Often after it," said Mrs. Warr, "Carl complained he felt as if his head was full of blood and it would run out of his eyes and he was never quite right from that time on. Before he was hurt he was not a bad boy."

Mrs. Warr explained that Carl was the son of her first husband, John Riedelbach, and was born in Germany 2 years ago. Riedelbach died and the widow, becoming a convert to the Mormon faith, emigrated with her seven children to Utah 24 years ago. Here she was married to John Warr and the children took his name.

Mrs. Warr says that Carl had the finger of his left hand blown off by a dynamite cap which he found while herding sheep 16 years ago and a year later shot himself in the hip accidentally while herding near Tooe. It is believed that these mishaps caused him to brood over explosions and explosives.

**DIVORCE SUIT
ENDS ROMANCE OF
YOUNG COUPLE****MRS. GEORGE BULLOCH.****WIFE ACCUSES
YOUNG BULLOCH****Former Aileen McKinnon Says
Husband Was Cruel
to Her.**

SAN FRANCISCO, Nov. 21.—George Bulloch Jr., through his attorney, has made strenuous denial to every charge brought against him by his wife, who was Miss Aileen McKinnon of Berkeley and who has returned to her father's house of the Castle Crags apartments, in that city.

The allegations of Mrs. Bulloch in her divorce complaint, set forth that her husband has turned out to be cruel and heartless and not the ideal man she had painted when she was induced to consent to an elopement. The separation occurred six weeks after the wedding and it was when Bulloch returned after his day's work that he found his homecoming bride had been to their rooms at 227 Grand avenue with her father and had removed her baggage.

Besides a charge of extreme cruelty, the 15-year-old bride says that her husband, who is employed by the Goddard Rubber company, did not contribute to her support from July 1 to August 2. Bulloch alleges that he is able to prove that when his bride left him she took \$600 of his money.

At the time of meeting Bulloch, the then Miss McKinnon was engaged to Benjamin Edwards of Sioux City, Iowa, and it was because of this engagement that her parents forbade Bulloch's coming to their apartments. It was six days after the first meeting that the two married in Oakland. J. L. McKinnon, the girl's father, who is interested in two large sugar plantations, and her mother, were furious, but the fiancée in the East, who is a good loser, telegraphed his congratulations.

Mrs. Bulloch says her husband caused her great bodily and mental suffering by compelling her to attend social functions every night whilst she was on the verge of a nervous collapse.

On July 15, in their apartments in Oakland, she says her husband threw her violently across the room. One week later, she says, at the Alhambra hotel in Oakland he gave her a severe beating and threatened to kill her father.

That there was another woman is indicated by the next charge in the complaint, which states that Bulloch entered an engagement to spend the evening with an unmarried woman on August 12. The following day he kissed this young woman, the wife says.

Three days later, she says, he threw her violently across a bed in the New Alhambra hotel, where she was staying. On the same occasion he threatened to send her father to jail.

The final break came, she says, on November 2, when with another man he accompanied two women on a tour of the beach resorts. Mrs. Bulloch says her husband left her for a month and she asks for \$150 a month alimony and declares his income is but \$150 a month.

It is in order that the charges are trumped up in order that he will be free to carry out her parents' wishes and marry Edwards.

**LOTTIE CARSON
TO CHANGE NAME****Schooner to Be Known as the
Leonore and to Carry
Mexican Flag.**

It was announced this afternoon at the Pacific shipyard that the three masted schooner Lottie Carson would be ready to go on its trial trip about the bay tomorrow. While at the local yards the Carson has been converted from a windjammer to a power schooner, being equipped with two powerful Imperial engines. The Carson was built by the Carson lumber interests of Eureka and for many years operated as a lumber carrier. Recently F. Jensen & Co. purchased it and will rename it the Leonore. The schooner will be placed under the Mexican flag and will be used for trading service about the Mexican ports.

For fifteen days the crew of the schooner C. S. Holmes battled with the elements and the Leonore will be ready to go through a series of terrific gales the staunch little vessel managed to make port today. At Long wharf the Holmes, which came from Everett in charge of Captain Thompson, was met by a number of mariners of its contest with the wind and waves but, according to the crew, the passage was one of the most successful encountered on this coast.

The German steamer Leonore, of Hamburg, is at the Pacific shipyard undergoing repairs.

The schooner Oakland is at Long wharf discharging lumber.

The German steamer Bakkerhus, Captain Kopp, sailed yesterday from Long wharf for Hamburg via Seattle and Tacoma.

JACKSON MOTOR
CARS ARE HERE

Olympic and Majestic Models
Attract Attention From
Coast Critics.

(By EDMUND CRIMMIN.)

The latest motor car arrivals to bid for the favor of the motorists of the coast are the two Jackson car models that were received yesterday by the Jackson Motor Car company at its San Francisco headquarters in Golden Gate avenue. The two new models are designated as the "Olympic" and the "Majestic" and from the comments gathered yesterday while the two arrivals were on display they will prove to be the latest of the local trade.

In body design the new arrivals are a marked improvement over the previous Jackson car models. The motor is a powerful Northwest and runs without the least evidence of vibration. In speaking of the new cars, Manager A. P. Sanger of the Jackson Motor Car company said yesterday: "Our factory has spared no expense in making the new models most complete and comfortable in every detail. The designers and engineers have certainly turned out a car that should meet with favor in all parts of the country and I look forward to a big business in this territory for the coming year. We have a car that is equal to anything on the market at its price and will prove it this season."

BURMAN READY FOR RACES.

The big cars have been worked out for the past two days and several local entries have been made. Three cars will be entered on every race that goes on the program and in the free-for-all open races and the handicap at least four cars have already been entered. For the Henry Burman, the cars now entered are the Blitzen Benz, the 120 H. P. Benz, the 200 H. P. Mercedes, the 110 Benz and the local cars that are entered by way of the Emeryville track.

ALAMEDA

J. R. KNOWLAND IS MENDING STEADILY

Will of Father, Disposing of Large Estate, Ready to Be Filed.

ALAMEDA, Nov. 21.—Congressman J. R. Knowland continues to show improvement and is now believed to be out of danger. He rested satisfactorily last night and during the last two days has regained a noticeable amount of his lost strength.

The will of the late Joseph Knowland will be filed for probate as soon as the Congressman is able to look the instrument over.

ment over. Owing to his illness he has not yet seen the paper. It is estimated by outside parties that the estate will total \$1,000,000 dollars. Among the properties are thousands of acres of timber lands and a fleet of steam schooners, both properties being auxiliaries of the big Gardiner Mill Company's plan, in which the elder Knowland owned a controlling interest.

Both the vessels and the timber lands are sold through the fact that they are component parts of a successful and large manufacturing concern. In addition the Kennedy Mill and Mining Company is a highly profitable company and large blocks of stock in the Alameda National and Alameda Savings banks are regarded as gilt-edged investments.

E. K. Taylor, former mayor of Alameda, is attorney for the estate and he will ready for filer as soon as the paper is filed.

confer with Congressman Knowland. The terms of the will are not being announced beforehand, but it is presumed that the bulk of the estate is left to the widow and that Congressman Knowland is named as executor.
